

GDPR - Confirmation Form

Currently, 7SIGNAL's Mobile Eye™ is not intended to and does not collect data on personal devices in GDPR countries. 7SIGNAL does not offer licenses for Mobile Eye deployment onto personal devices; as a result Mobile Eye is not deployed on corporate devices assigned to a specific person or individually owned devices, and is only deployed on multi-user devices.

Accordingly, 7SIGNAL does not process personally identifiable information **shared devices**, which are corporate devices that are not assigned to an individual person but are assigned to an area or workstation shared by a group of people.

To use our product for "**shared devices**", the "Data Controller" must confirm that the 7SIGNAL Mobile Eye will only be deployed to "**shared devices**". In addition, the "Data Controller" on behalf of the End User Customer using the 7SIGNAL Mobile Eye must indemnify 7SIGNAL from and against any claim arising from non-shared device deployment.

By signing below, you are confirming that 7SIGNAL's Mobile Eye will only be installed on "**shared devices**".

[End User Customer]
